

How This Course Works

Your weekly work, your grade, and what you need

Prof. Aviv Zohar

Semester A, 2026-7

AICode @ HUJI

What this video covers

- The **labs**, and how you prepare for them at home
- Your **grade**: how the 20 / 40 / 40 split works
- **Quizzes**: one each week, on that week's videos
- Using **AI on your own work** — what is allowed
- **What you need**: subscription and tools
- The **final project**, in brief

A flipped course: no lectures

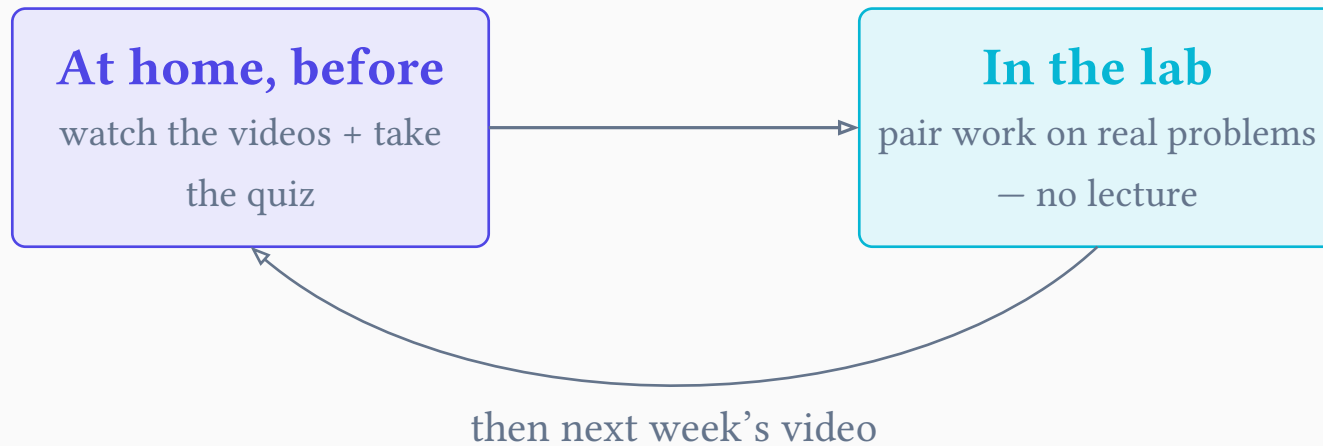

At home, before

watch the videos + take
the quiz

Using AI: what is allowed

✓ Labs & project

Use agents **as much as you like**.

Using AI: what is allowed

✓ Labs & project

Use agents **as much as you like**.

✗ Quizzes

Work on your **own**. No agent or notes.

Using AI: what is allowed

✓ Labs & project

Use agents **as much as you like**.

✗ Quizzes

Work on your **own**. No agent or notes.

Use agents in labs and the project, but not in quizzes.

What you need before Week 1

A paid agent subscription

We expect you will need Claude **Max 5x** or equivalent (e.g. Codex),
at **≈USD 100 / month** for the whole semester.

A smaller plan is unlikely to be enough.
Consider the cost before you enroll.

What you need before Week 1

- A **laptop** with a Unix shell — macOS, Linux, or **WSL2** on Windows

A paid agent subscription

We expect you will need Claude **Max 5x** or equivalent (e.g. Codex),
at **≈USD 100 / month** for the whole semester.

A smaller plan is unlikely to be enough.
Consider the cost before you enroll.

What you need before Week 1

- A **laptop** with a Unix shell — macOS, Linux, or **WSL2** on Windows
- **Git**, a **GitHub account**, and **Docker** (for the sandboxing labs)

Install before the first lab. The lab does not cover setup. An AI agent can help.

The final project, in brief

A group project
uses what you learned

The final project, in brief

The final project, in brief

The final project, in brief

The group project counts for 40%. Details come later.

- **Flipped**: video + quiz at home, graded work in the lab. Grade is **20 / 40 / 40**.

Recap

- **Flipped**: video + quiz at home, graded work in the lab. Grade is **20 / 40 / 40**.
- Have your **laptop, git, Docker** and **paid subscription** working before Week 1.

- **Flipped**: video + quiz at home, graded work in the lab. Grade is **20 / 40 / 40**.
- Have your **laptop, git, Docker** and **paid subscription** working before Week 1.

The lab does not cover setup. Arrive with your agent ready.
